Program:
IAPMO R & T

Presentation: “Look for the Mark!”

With the Jan. 2, 2011 deadline for product compliance to CALGreen, manufacturers are urgently seeking ways to achieve and document to California inspectors, architects and designers their products' compliance with the requirements of the new Code. IAPMO R&T will offer manufacturers a certificate of listing showing their products to be compliant with any or all of the following: 2010 California Green Building Standards Code (CALGREEN), IAPMO Green Plumbing and Mechanical Code Supplement, USGBC’s LEED® Rating System, National Green Building Standard, and Natural Resources Canada R-2000 Standard. IAPMO R&T will discuss these services they offer, the process of Product Certification, and what Marks of Conformity to look for.

You don’t want to miss this very informative meeting.

And don’t forget to invite a friend or two!

We look forward to seeing you there.

Ask a friend from a different jurisdiction to come with you. Enjoy the exchange of plumbing and mechanical information with other professionals from the County of Orange.
