Call to Order:
The meeting was called to order at 11:45 by David Gans

Announcement:
David announced that Mike Logsdon’s wife passed away on March 5th. A heartfelt sad sigh was expressed by the room. Jeff Landon to Follow Up with flowers to the service and information on when services will be held.

Minutes:
Prior minutes were read and approved as written.

Training Schedules:
No training scheduled at this time

Old Business:
No Old Business was discussed.

New Business:

- Need additional training topics for the monthly meetings. Please send to David Gans.

- Additional training is available on accessibility. For 20187 the cities will have additional finds that are funded through the business license process because the state wants CASP inspectors. Chapter is to consider hosting some training.

- A question was asked if CA allows smaller than ½” pipe, and the answer is no. Smaller pipe is not present in the pipe tables in Chapter 6 of the CPC.

- A discussion regarding Hanger and Support Table 313.3, and Section 313.1 of the CPC took place. Of question was the maximum spacing requirements shown for nonmetallic pipe and the allowance in section 313.1 to use the manufacturers recommendations. Table 313.3 is spaced for 180-degree water and the manufacturers tables are temperature specific and allow more space at these lower temperatures.

Presentation:
Q. What are the minimum obligations for accessibility for the disabled? Chapter 6 of the Federal Standard? No see part 2 of the CA Building Code. California has made modifications to the federal standard above and beyond the minimum. Also note that part 2 allows a hardship application or provision where an owner can petition under section 8.
This needs to be presented to the business as they digest the needs for accessibility upgrades in their renovation of the property. Be proactive with it as a city.

Use correct terminology. There is no ADA compliant bathroom in CA. There is a Chapter 11 of the CA Building Code compliant bathroom.

In part 2 Scoping Requirements, and section 6 Plumbing Elements and Facilities anything shown in *italics* is a change from the Federal Standard for California.

The meeting adjourned at 12:50

Respectfully submitted,

Chrissy Hamm,
Chapter Secretary
