Program presented by: David Mason, P.E., OSHPD

- What is OSHPD?
- The medical environment and infection control.
- Recent developments in California Plumbing Code OSHPD Amendments.
  - What we look for in design reviews.
  - Common questions we get at OSHPD.

Dave is a licensed, professional, mechanical engineer and serves as the technical lead for the mechanical engineering staff at OSHPD. He works to stay current on research to improve the prevention of hospital acquired infections, acts as a technical focal for fellow design professionals and staff, and drafts OSHPD amendments to the California Mechanical and Plumbing Codes. He has been an employee for the State of California since 1999, designing over 200 projects, and performing energy conservation analysis. He is a graduate of Cal Poly, SLO.
