AMES FACTORY TOUR

WHEN:
FRIDAY MAY 11TH, 2018
11:45AM TO 2:30PM

WHERE:
AMES FIRE & WATERWORKS
1485 TANFORAN AVENUE
WOODLAND, CA 95776

Experience first hand the unique method that streamlines the process of backflow valve manufacturing and assembly Ames Fire & Waterworks has engineered and developed. See and understand how large diameter stainless steel backflow preventers and other engineered products for the waterworks, fire protection and irrigation markets are made, how consistent quality is ensured and customization is possible.

RSVP to Charles Stillman, Charles@repcor1.com
