Our guest speaker, Jason Shirey, Territory Manager for Elmco Stewart Sales, has been a Manufacturer’s Representative for 12 years, originating in Phoenix and has been serving the Las Vegas market since 2012. He currently represents 20+ products for Elmco Stewart and he will be discussing:

**An Overview to Siphonic Roof Drainage**

- What is it, how is it different from traditional systems and why it makes sense for Las Vegas?
- What are the components that make up a siphonic roof drain system?
- The features and benefits of design, and how it translates to cost and labor savings to the contractor.
- Identify potential candidates for siphonic systems and projects that make sense to consider siphonic drains as a solution.

**RSVP by the deadline and get a free raffle ticket**
