**Monthly meeting THIS Wed., June 13th at Los Compadres - Lunch format**

**June Chapter News:**

This Wednesday, we will have Phillip Ribbs from (CISPI) Cast Iron Soil Pipe Industries talk about the correct installation of his product and its inclusion in Chapter 7 of the UPC.

As this will be the last meeting before our summer break, we hope you can find time to join us. We are planning a tentative special event sometime this summer and will provide more information as it materializes. With the various governmental jurisdictions acting soon on updating their code datum from 2006 and 2009 to the recently released 2012 versions, we hope to provide our local members with pertinent announcements. One of the first came in from the State Contractors Board, announcing two - 1/2 day training seminars on the 2009 IECC. Note that each day has identical morning and afternoon sessions, from 8 a.m. to noon, or from 1-5pm:

- **Day 1 - July 10:** Provides a half-day review of the 2009 Commercial IECC, covering scope and application, building envelope, simple mechanical systems and electrical lighting.
- **Day 2 - July 11:** Provides a half-day review of the 2009 Residential IECC, covering the same scope and application.

For more information and registration, please contact Emily Nunez at the State Contractors Board, 775-687-1850 ext 7324 or by e-mail at: ehnunez@energy.nv.gov

In September, our speaker will be Dick Thompson from Aquatherm Industries, manufacturers of fusible polypropylene pipe.

**(National) IAPMO Trial Membership:**

Once again, just a reminder that IAPMO has a trial membership offer enabling the participant to take full advantage of many of the benefits extended to full members. Please consider this option for membership with minimum outlay and maximum benefits! Application form attached with your newsletter.

*Our Chapter is Only As Strong As Your Active Participation*
