March 10th Chapter Meeting:

We are all a little apprehensive these days about the spread of COVID-19. We just happen to have Nick Florey, Washoe County Senior Environmental Health Specialist as our March speaker. Nick will do a short presentation on the Corona virus and the County’s preparedness and then take general Dept. of Health questions from our chapter members. A diversified set of code related topics (kitchen exhaust hoods, makeup air in the age of tight buildings, grease interception, backflow & cross contamination, Legionella, commercial food establishment inspections) are all on the table.

Please join us for our monthly 90-minute Lunch 'N Learn type affair and re-consider the benefits of a Chapter membership. If you haven’t been in a while or have never been, come check us out. Lunch this month will be generously provided by RHP Mechanical Systems.

As a reminder, please RSVP for sandwich count within the accompanying email.

February 11th Meeting:

We had 37 attendees. Our thanks go out to Marcus Voss, Combination Inspector - City of Reno for a look at the "Podium Style" buildings which now permeate our skyline. Marcus provided an excellent slideshow into acceptable practices and code concerns related to plumbing, mechanical penetrations and firestopping installation.

Further, we voted in and introduced our members to our new 2020 officers:

Robert Sandoval - Chairman, Waylon Lowery - Vice Chair, Jon Orrill - Treasurer and Frank Sterzinar - Secretary.

Upcoming Meeting Schedule:

April 14th - Robert Torbin, OmegaFlex - CSST & bonding

May 12th - Brennan Paterson, NV DIR - Boilers, Water Heaters, Pressure Vessels & Elevators

Our Chapter is Only As Strong As Your Active Participation
