Join us at the next IAPMO Oregon Cascade Chapter Meeting

Network with other contractors, plumbers, meet some inspectors and Plumbing and Mechanical Officials. Meetings are now monthly with 2 alternating locations. Eastside and Westside. The new westside location beginning 06/21/18 will be at Nicoli’s Sports Bar and Grill: 17880 SW McEwan Rd, Lake Oswego, Ore 97035.

The June 21st meeting, we will have Eric Halberg from Quality Sales, Representing Rinnai Water Heaters. He will introduce the Next Generation of their product and touch into some of the Preventive Maintenance and adjustments, that as installers we need to be aware of.

The Cascade Chapter is striving to help increase product knowledge and to keep you informed with Code and industry changes. With your membership, you will receive 2 CEU’s by attending each meeting. For additional training classes with Plumbing Code and Law Updates, are continually scheduled at reasonable fees.

We will soon sponsor and schedule product training for service and repair for some products. As the Plumbing Industry has changed through the years and the knowledge of some products has been sidelined for the new, it’s important to have that information available.

Hope to see you there!
