V. CODE:
   Water service installation: Who inspects it? It sounds like it varies from jurisdiction to jurisdiction. In Pierce County, a permit is required from the building dept. when replacing or installing a new water service from the meter to the building, the inspection is performed by the building inspector.

   ASSE 1070 Temperature Limiting at Tubs: Looks like the code did not take into consideration the claw-foot tubs with the 2-handle valve for temperature limiting devices.

VI. NEXT MEETING:
    Razzie’s in Greenwood
