Meeting Minutes - Thursday, February 13, 2020

Present: Russ Thompson, Seth Thompson, Derek, Mark, Kathy Thaut, Joe, Bob, Larry, Mark Mahoney, and Paul

6:15 PM Russ called the meeting to order

A discussion started by Bob about writing and submitting a code to IAPMO requiring a recirculating system on residential new construction for the purpose of water conservation. Bob and Mark have worked on the verbiage and will bring it in March to the next meeting.

Russ asked about sponsorships for our chapter. A discussion was had about what we would use the sponsorships for and what activities the chapter wanted to do. Seth suggested we come up with a vision and some goals for the chapter. Those that attended the NW IAPMO meeting shared how it resembled a union meeting and no one at our meeting wanted our chapter to become like this.

We discussed what we wanted in the way of growth – not too fast.

Joe suggested possibly doing something in the community such as helping with a Habitat for Humanity house.

Mark Mahoney suggested we think about some ideas and bring them to the meeting next month.

Meeting was adjourned at 7:08 PM
