Discussion
There was discussion on many topics, including Fire Fighter Replenishment Air and Chapter 16 of the 2009 UPC which is to be adopted with major changes by the California Department of Water Resources.

- Jeff Hutcher, City of Oakland, reported on HCD proposed changes to Chapter 16A Non-potable Water Reuse Systems, including exempting permit requirements for a gray water system supplied only by a Clothes Washer System and/or a Single Fixture. A complete draft of Chapter 16A (Revised May 15,
2009) can be found at the Housing and Community Development (HCD) website under the 2009 UPC / 2010 CPC – Triennial Code Adoption Cycle.

- Mike Harrison, County of Santa Clara, Bob Adler and Rich Betti, City of San Jose, and Marty Cooper, City of Foster City, spoke on proposed changes to California 2010 California Plumbing Code – Chapter 16 – Part II. The DWR proposals include limiting the scope of Chapter 16 – Part II only to recycled water for water closets, urinals, trap primers for floor drains, and floor sinks – other application would not be under the scope of the CPC; changing the labeling requirements, removing the annual cross-connection test and allowing quick coupler hose bibs on the recycled water system. More information is available at the Department of Water Resources website for Dual Plumbing Systems.
