Call to Order
The meeting was called to order at 12:15 pm on Thursday August 20, 2009 at The Waterfront in Redwood City by Don Wadsworth, Vice Chairman of the Central California Chapter of IAPMO.

Introductions
Self-introductions followed and there were 18 attendees. Chapter Officers present were Don Wadsworth – Vice Chairperson, Mo Salberg – Treasurer, and Steve Silber – Secretary.

Old Business
Approval of Minutes for July 16, 2009

New Business
Marty Cooper reported on the upcoming changes to chapter 16 for recycled water. The DWR proposes to adopt, approve, codify, and publish changes from Chapter 16 of the 2009 UPC into the 2010 CPC. Written comments will be accepted from August 28, 2009, until 5 p.m. on October 12, 2009. Some of the changes involve the installation of quick connections instead of hose bibs on the outside of the building, along with no annual cross connection test being required.

On July 20, 2009, the Building Standards Commission voted to endorse the emergency finding and standards proposed by HCD pertaining to graywater for residential applications. As voted on by the BS Commission, permits would not be required for single fixture or for simple systems. Each and every local jurisdiction would need to pass a amendment to the express term published by the BSC. The action was opposed by CCC IAPMO chapter member, CALBO and Building Officials from northern and southern California. The effective date for Chapter 16A is Aug. 4, 2009.

Discussion
The upcoming IAPMO conference will be a educational format, this being the first year of the 2012 code cycle. Mike Mitchell and Phil Ribbs will be among the presenters. Our chapter hopes all our members will have a chance to be there.
On October 2, 2009 there will be held a “Seismic Event” seminar held at Stanford University Tresidder Student Union. It is put on by the AIA Chapter of Santa Clara Valley. The event will have many world-class seismic experts and classes covering seismic training.

**Presentation:**
Robert Foster from Foster Industries gave a very informative presentation on Eternal™ hybrid water heaters. Robert reviewed properties of the multi-pass stainless steel heat exchanger; the classification of the flue in relation to the NOx, Co and exhaust flue temperature output of the different models; field modification from natural gas to propane and field modification to higher BTU output. The Eternal™ hybrid water heater does not currently have a H certification with the ASME Boiler and Pressure Vessel Code.

**Announcements**
The next meeting will be held on September 16, 2009 at Kliman Sales - 1245 N 5th St, San Jose, CA 95112. The presentation will be on Sloan Valves and Gray Water.

Please make your reservations with Chapter Chairperson Don Wadsworth ASAP because we need to know in advance how much food to order. Cell Phone: (408) 507-2274
E-Mail: dwadsworth@cispi.org

**Raffle**
The raffle was a rousing success with everyone leaving with a prize. Thank you, Sarah Aguilar with Southland Industries, Mo Salberg KDS Plumbing, Martin Cooper City of Foster City, and Phillip Ribbs with PHR Consultants for your generous contributions to the Chapter.

**Adjournment**
Chapter Vice Chairperson Don Wadsworth adjourned the meeting at 1:58 PM.

Respectfully,
Steve Silber, Chapter Secretary
