New Business
Treasures report was approved as read.

Martin Cooper reported on the College of San Mateo cutting the inspectors classes from their course list. For nearly 40 years, the Building Inspection Technology program at the CSM has focused on providing the specific certification, training, and continuing education requirements for construction inspectors, plans examiners and building officials in San Mateo County. This program has been committed to improving the quality and scope of teaching all aspects of building inspection at the College of San Mateo by providing the current information and requirements of the building, electrical, plumbing, mechanical energy and accessibility endorsed by the California state agencies. The Building Inspection Technology program also provides continuing education mandated by sections 18965 through 18971 of the Health and Safety Code CCRs along with preparation for CASp mandated by SB 1608. Marty requested permission to send a letter for help to try to preserve the program. This was unanimously approved.

Discussion
At the next Chapter meeting nominations for officers will be held.
**Presentation:**
Tom Corsentino representing Zurn Engineered Water Solutions gave a very good presentation on AB 1953. There was a lot of discussion on how this will be enforced by the building officials. As we all are aware, lead is, and will be a big hurdle for the plumbing industry.

**Announcements**
The next meeting will be held on November 19, 2009 at The Waterfront Restaurant in Redwood City.
The presentation will be on Tankless Water Heaters given by Norm Winings from Cal Hydronics.
