**Presentation**

Gary Klein: Everything you wanted to know about Hot Water Systems, but were afraid to ask!

Gary had a slide presentation which included slides of the UA’s new Mobile Service Tech Training Lab. Gary is very proud to have been involved with the development and design of the portion of the trailer devoted to hot water systems. With the various water heaters, piping arrangements, and fixtures with different flow rates, it makes it very easy to demonstrate to someone inefficiencies in a domestic hot water heating systems.

Gary went on to discuss flow rates through a variety of piping materials, and standard shaped fitting. He explained as of late he has been working on flow rates, running some test, and comparing them to existing flow rate standards currently used in the piping industry.

There was some discussion of revised flow rate charts being developed for domestic water systems. Also there was discussion regarding California Energy Title 20.

**Announcements**

None

**Raffle**

All tickets were drawn and prizes were picked.
Adjournment
The meeting was adjourned at 1:20 pm by Chairman Carl Cimino.

Respectfully,
Al Garcia
